

VISION

We build trust in a sustainable future through the evaluation of education

For the benefit of society and education

Our work is aimed at increasing competence, equity, non-discrimination and well-being.

We are responsible for evaluating the entire education system.

STRATEGIC OBJECTIVES

Raising the competence and education levels

Fostering social, ecological and economic sustainable development

Continuous improvement of the quality of education

Shared solutions nationally and internationally

We produce educational knowledge, competence and understanding that lead to wise decisions.

We value cooperation and interaction in our work approach.

VALUES

Impactful
Our assessments are enhancement-led, participatory, bold and transformative.

Independent
We carry out our assessments independently and impartially.

Trustworthy
We are a proficient, experienced and competent forerunner in evaluation.
